

# Muvman Active Seating

## Discover the world of variable sitting.

Sitting for longer periods of time is not good for your back, even if you have the best chair in the world. Standing is a great alternative for short periods of time, but that's it...you don't want to stand all day long!

The Muvman was developed in Germany as the perfect solution to this problem.... it means being able to assume your optimal posture at different heights in any sitting position...as the seat tilts forwards you always sit at the optimum distance from your work surface - regardless of your height or physique.

## Red dot design award for international excellence 2011

After its nomination for the Design Award of the Federal Republic of Germany 2011 and the "Interior Innovation Award - Winner 2011", the Muvman has now been honoured with the "red dot" seal of quality for top design by the high-profile jury of the red dot design award, one of the most renowned international product competitions.

## 2012 New Awards & Certifications!

The Muvman active seat for standing/sitting from Aeris, the sitting in motion specialists, starts off the year 2012 with two more prestigious design awards. Both the design experts on the "universal design" jury and the consumer jury consisting of 100 consumers chose the active seat for standing/sitting as their favourite.

- BIFMA e3 certified & also ETL Environmental VOC certified

You really have to try this product for yourself to appreciate the benefits and unique features of this seat. The flexible column of the Muvman moves in all directions and reacts to your body weight simply and easily as you change position. The special Flexzone seat is designed to reduce pressure on your thighs when you bring your weight forward.

Ideal for activating and training your core muscles, and helps strengthen your posture and reduce your back pain. The Muvman is the perfect partner for sit-stand height adjustable desks, drafting tables, service counters, information desks, reception areas and numerous other areas. Designed in Germany by Aeris, the inventors of the Swopper stool. Best of NeoCon Silver Award 2013 for the Muvman active seat for standing/sitting from Aeris.
